I have your letter of October 15, 1954. In it you asked whether "Mr. Scott" had been located and whether or not he had been able to corroborate certain of your contentions which are the basis of a claim against this Agency by you. Also you requested whether your furnishing us of the date of May 8, 1952, as being your recollection of the date upon which "Mr. Scott" called you, would be helpful in our inquiry into the whole matter.

As I stated in my letter of August 25, 1954, we have made an exhaustive investigation of this matter. In the course of that investigation, we were unable to locate anyone answering to the description or circumstances of "Mr. Scott". However, please understand that, had we been able to identify "Mr. Scott", the Agency position in the matter would not be subject to change therefor. This for lack of other, and corroborative, evidence, the sum total of which could be construed as being tantamount to the Agency's having taken a position other than that stated by [redacted] in his letter of October 6, 1952.

Nor has our investigation revealed any record of a telephone conversation between someone in this Agency and you on or about May 8, 1952.

Should you wish to continue with this matter, we shall be glad to receive whatever presentation you wish to make at such time as you are ready to make it.

Very truly yours,
